THE ALLSTATE PRODUCT BOOK

Your Comprehensive Guide to Life and Retirement Products

Protect

Accumulate & Grow

Preserve

Make it Last
HELPING CUSTOMERS BUILD A PLAN FOR THE FUTURE

Life and Retirement products are offered by Allstate to help our customers make a plan for a future — to help reach their goals and to become more financially secure.

Understanding customers’ goals, preferences and additional financial needs can help you tailor solutions more effectively.

Throughout this book you will see how each individual product can help serve a particular need within customers’ financial lives, as identified by these symbols:

- **Protect**
  - How customers protect their income and their assets

- **Accumulate & Grow**
  - How customers spend, save and invest their money for future needs

- **Preserve**
  - How customers preserve their lifestyle

- **Make It Last**
  - How customers maintain an income throughout retirement and leave a legacy

Identifying products by these categories can help you understand how the solutions you offer fit together into a plan to help customers build financial security.
As customers go through each stage of life, their relationship to money, income and savings changes. When they start a family, their priority shifts to financially protecting those they love. As they near retirement, the focus is on preserving what they have for their lifetime – and perhaps on leaving a legacy.

Here’s one way to look at customer priorities and concerns as they relate to the building blocks of a good financial plan.

1) Key building blocks: Protect; Accumulate & Grow; Preserve; Make it Last.

2) Areas of priorities

3) Types of financial solutions and areas which address customer concerns and priorities.

COUNTER OFFER
Basic Term is the first Allstate life insurance product that includes an automatic counter offer for certain customers who do not qualify for the standard Basic Term coverage. This unique enhancement provides a great opportunity to help close more Basic Term sales and provide valuable life insurance coverage to customers. This process is hassle-free with no additional applications or medical exam.
Allstate TrueFit®
TERM LIFE TO AGE 95 (CONTRACT SERIES NYLU818)
Issued by Allstate Life Insurance Company of New York

› AT A GLANCE

Affordable: Typically provides the most insurance for the customer’s premium dollar.

Straightforward: Simple-to-understand product with guaranteed premium payments and death benefit.

Flexible: The option to choose a coverage period from 10-30 years.

Personalized Protection: Up to five optional ‘layers’ of protection to help meet specific shorter-term life insurance needs, like housing expenses or college tuition, for a period of 10-20 years.

Unique in Market: A “one-of-a-kind” solution in the industry, the policy allows customers to only pay for what they need based on their specific needs.

Conversion Privilege: You have the option to convert to a permanent policy until year 15, or the policy anniversary following age 65, whichever is earlier. Conversions not allowed in last two years of the level premium coverage period or after the level premium coverage period.

› FOR POTENTIAL CUSTOMERS WHO...

• Are newlyweds, young parents or homeowners
• Have a protection need for a specific period of time
• Want quality coverage that can be personalized to fit their unique needs
• Are budget conscious
• May have a future interest in converting to a longer term protection solution
ISSUE AGES/UNDERWRITING CLASSES

**Base policy:** issue ages range from age 18 to age 64 depending on the level term period, gender, underwriting class, and total face amount on the insured.

**Additional layers:** issue ages range from age 18 to age 60 depending on the term period.

Allstate FutureGrowth IUL®
FLEXIBLE PREMIUM UNIVERSAL LIFE (CONTRACT SERIES NYLU14-5)
Issued by Allstate Life Insurance Company of New York

› AT A GLANCE

**Future flexibility:** Customers can adjust the death benefit or premium payment to fit their current situation.6

**Control:** Customers choose to allocate their premiums to a fixed or indexed account- or a combination of both.

**Greater growth potential:** The indexed account is linked to market performance, allowing greater investment potential. Additionally, an indexed account floor and a fixed account guaranteed interest rate provide downside protection.

**Accessible cash value:** Access to the policy’s cash value through partial withdrawals and loans.5,4

› FOR POTENTIAL CUSTOMERS WHO...

• Want to protect their families with a death benefit, help cover estate taxes, and leave an inheritance

• Are investment savvy and want more from their life insurance than just death benefit protection

• Looking to build cash value but will limit upside potential so that they can have some downside protection

• Want performance tied to the S&P 500® but don’t want the hassle of selecting or monitoring investments8

• Want the ability to make changes to their policy in the future

  A deferred variable annuity is a long-term financial product designed for retirement purposes. In essence, an annuity is a contractual agreement in which payment(s) are made to an insurance company, which agrees to pay out an income or a lump sum amount at a later date. Typically, variable annuities have mortality and expense charges, account fees, investment management fees, administrative fees, and charges for special contract features. In addition, annuity contracts have exclusions and limitations. Early withdrawals may be subject to surrender charges, and, if taken prior to age 59½, a 10% federal tax penalty may apply. Variable annuities are subject to investment risks, including the possible loss of principal invested.

The Protective ProSaver Secure II Fixed Annuity is a fixed, limited flexible-premium deferred annuity contract. The Protective ProSaver Secure II Fixed Annuity is issued by Protective Life Insurance Company (not authorized to sell insurance in NY) under policy form series P-3270 and Protective Life and Annuity Insurance Company (authorized to sell insurance in NY) under policy form series A-3270. Both located at 2801 Highway 280 South, Birmingham, AL 35223. Each company is solely responsible for the financial obligations accruing under the products it issues. Product guarantees are backed by the financial strength and claims-paying ability of the issuing company. Product availability and features may vary by state. Limits may apply. Forms vary by state.

* All withdrawals reduce interest earnings due to the interruption of compounding. More frequent withdrawals reduce interest earnings more than annual withdrawals. Withdrawals will reduce the death benefit, contract value and cash surrender value. Withdrawals of earnings will be subject to income tax and may be subject to a 10% IRS penalty tax if taken prior to age 59 1/2. Under current tax law, any withdrawal from non-qualified contracts will be deemed earnings until all earnings attributable to the entire contract value are withdrawn.

++ Automatically included with all contracts if approved in that state. See the endorsement or contract for specific details.

Only then will a withdrawal reduce principal. Any withdrawal from a qualified contract will be taxed on the entire amount. The Protective ProSaver Secure II Fixed Annuity is a fixed, limited Flexible-premium deferred annuity contract.

  Variable annuities are issued by Pruco Life Insurance Company (in New York, by Pruco Life Insurance Company of New Jersey), Newark, NJ (main office) and distributed by Prudential Annuities Distributors, Inc., Shelton, CT. All are Prudential Financial companies and each is solely responsible for its own financial condition and contractual obligations. Prudential Annuities is a business of Prudential Financial, Inc.
  Prudential Annuities, Prudential, the Prudential logo, the Rock symbol and The Retirement Red Zone are service marks of Prudential Financial, Inc. and its related entities.

  A variable annuity is a long-term investment designed to create guaranteed income in retirement. Investment returns and the principal value of an investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than the original investment. Withdrawals or surrenders may be subject to contingent deferred sales charges. Withdrawals and distributions of taxable amounts are subject to ordinary income tax and, if made prior to age 591/2, may be subject to an additional 10% federal income tax penalty. Withdrawals, other than from IRAs or employer retirement plans, are deemed to be gains out first for tax purposes. Withdrawals can reduce the account value and the living and death benefits.

  Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Your licensed financial professional can provide you with complete details.

  Investors should consider the contract and the underlying portfolios' investment objectives, risks, charges and expenses carefully before investing. This and other important information is contained in the prospectus, which can be obtained from your financial professional. Please read the prospectus carefully before investing.

› DISCLOSURES
Annuities are issued by Voya USA Annuity and Life Insurance Company, (Des Moines, IA), member of the Voya family of companies. All guarantees are based upon the financial strength and claims-paying ability of the issuing company, which is solely responsible for all obligations under its contracts. This is a summary. Read the contract for complete details. The product and its features may not be available in all states and are subject to change. Fixed index annuities are insurance contracts that, depending on the contract, may offer a guaranteed annual interest rate and earnings potential that is linked to participation in the increase, if any, of an index or benchmark. Withdrawals may be subject to Federal/State income tax and, if taken prior to age 59½, an additional 10% Federal penalty tax. Withdrawals do not participate in credits of benchmark, index, or interest. Federal law requires that withdrawals be taken first from interest credited. A withdrawal includes any partial surrender. All distributions from qualified annuities may be taxable. State premium taxes may reduce the final value of your annuity. IRAs and other qualified plans already provide tax-deferral like that provided by an annuity. Additional features and benefits such as contract guarantees, death benefits and the ability to receive a lifetime income are contained within the annuity for a cost. Neither the company nor its agents or representatives can provide tax, legal or accounting advice. The contract does not directly participate in any stock or equity products. For premium elected to the index or benchmark strategies, no amount is credited in the current contract year if the contract is annuitized, surrendered or re-elected prior to the end of the contract year. The interest rate, index cap, monthly cap, trigger rate, participation multipliers and credit caps are set at the beginning of the period, are guaranteed for the first period and may change for future periods. Annuity income is defined as a series of periodic payments, a part of which may be return of premium or principal, which is guaranteed by the issuing insurance company for a specified period of time or for the life of the annuitant.

Contract form series: SPIA(GR) 99 (Group) and A0SIFSP96 (Individual)

Appendix A

LIFE PORTFOLIO RIDER DESCRIPTIONS
Allstate Life Insurance Company of New York

ACCELERATED DEATH BENEFIT RIDER TERMINAL ILLNESS (NYLU683, NYLU700, NYLU745)
Provides for payment of up to the lesser of 80% of the death benefit in effect or $250,000, if the insured is diagnosed with a terminal illness. Terminal illness means the insured has a medical condition that, notwithstanding appropriate medical care, will result in death within 12 months.

ACCIDENTAL DEATH BENEFIT RIDER (NYLU825, NYLU680)
Pays an additional benefit amount to the beneficiary if the insured is killed in a covered accident as defined in the rider. Maximum benefit cannot exceed the lesser of $250,000 or total coverage on the base insured.

ADDITIONAL INSURED RIDER (NYLU730, NYLU820, NYLU822, NYLU799, LU11009NY, NYLU14-7)
Provides additional term insurance on the primary insured, the insured’s spouse or another immediate family member. The rider has conversion privileges and can be converted to its own policy subject to the guidelines in the rider.

CHILDREN’S LEVEL TERM RIDER (NYLU682, NYLU682-1, NYLU826, NYLU697, NYLU15-3)
Provides term insurance coverage for natural or legally adopted children and stepchildren of the insured. Each unit (up to four maximum) provides $5,000 of coverage for $30 annually. Coverage on an individual child terminates at the child’s age 25 or the primary insured’s 65th birthday, if sooner. Each unit is convertible without evidence of insurability for up to $25,000 on each child’s 25th birthday or at the primary insured’s 65th birthday, if sooner.

CONTINUATION OF PAYMENT RIDER (NYLU681, NYLU14-3)
Contributes a monthly amount to the value of the policy in the event of proven disability and is purchased in $100 increments of annual premium protection up to the lesser of two times the annual premium or $10,000. Coverage terminates on the policy anniversary following attainment of age 60.

COVERAGE GUARANTEE RIDER (NYLU728)
Guarantees that the TotalAccumulator policy will not lapse while the rider is in force and required premiums are paid.

• The Extended Coverage Guarantee option ensures the policy will not lapse until the later of age 70, or 20 years from the date of purchase.
• The Lifetime Coverage Guarantee option can extend coverage for the insured’s lifetime, regardless of market performance.

The rider also has “catch-up” provisions to reinstate a lost guarantee period.

COVERAGE PROTECTION RIDER (NYLU677)
This rider provides protection from lapse as long as the coverage protection account value–less policy debt, is greater than zero, even if the net surrender value under the policy is less than the monthly deduction for the current policy month. The coverage protection account value is determined on each monthly deduction date.
Appendix A
LIFE PORTFOLIO RIDER DESCRIPTIONS
Allstate Life Insurance Company of New York

GUARANTEED INSURABILITY RIDER (NYLU695, NYLU800, NYLU14-4)
Provides the opportunity to add additional insurance without underwriting requirements at preset dates. Additions are available on the anniversaries following the attainment of ages 25, 28, 31, 34, 37 and 40. Unscheduled increases are also allowed at life events including birth, marriage and adoption. For the Allstate Whole Life Advantage product, this rider is not available with smoker rate classes.

OVERLOAN PROTECTION RIDER (NYLU689, NYLU14-9)
Prevents a policy from lapsing due to policy loans exceeding the policy value by converting the policy to a paid-up policy. If the customer chooses to exercise the Overloan Protection Rider, a one-time charge of 4.5% of the policy value will be deducted. Refer to the Rider Contract for requirements needed to exercise this rider. This rider may have income tax consequences.

PAID-UP INSURANCE RIDER (NYLU797)
This rider allows for the purchase of paid-up insurance based upon payments within a maximum and minimum amount. The payment options are a single premium and/or annual premiums. The primary purpose of the single premium option is to facilitate 1035 exchanges. The 1035 amount may be paid in multiple payments, but must be received within 180 days. If the annual premium option is selected, minimum annual premium required each year is equal to $100, except in the first policy year in which there is no minimum annual premium requirement. The maximum annual premium allowed is equal to the annual base policy premium.

PRIMARY INSURED TERM RIDER (NYLU729, NYLU819, NYLU801, NYLU14, NYLU14-6)
Provides additional coverage on the base insured. Coverage limits vary by base policy. Within rider guidelines it may be converted to the base plan or to any permanent life insurance policy providing the amount converted meets the minimum face amount requirements of the new policy. If the Coverage Guarantee Rider has been added to the contract, additional limitations apply.

WAIVER OF PREMIUM RIDER (NYLU699, NYLU824, NYLU15-2)
Waives the policy premiums if the insured becomes totally disabled for as long as the insured remains totally or permanently disabled. The insured must satisfy policy requirements for confirming total disability. Disability must occur before the rider coverage terminates. Rider coverage terminates on the policy anniversary following attainment of age 60 (or age 65 depending on the rider form number). Issue ages, amount and fees vary by product.

WAIVER OF MONTHLY DEDUCTION RIDER (LU11008NY)
Waives the monthly deductions if the insured becomes totally disabled for as long as the insured remains totally or permanently disabled. The insured must satisfy policy requirements for confirming total disability. Disability must occur before the rider coverage terminates. Rider coverage terminates on the policy anniversary following attainment of age 65.
Appendix A

LIFE PRODUCTS FOOTNOTES AND DISCLOSURES

1 This is a general description of the rider. Please see rider for terms, conditions, and restrictions specific to the product to which it is attached. Additional costs may apply.

2 A disclosure form must be completed prior to receiving benefits under this rider. An administrative expense may be charged if the benefit is used. Receipt of accelerated benefits may be taxable. Tax laws relating to accelerated benefits are complex. Please consult a tax advisor. Receipt of accelerated benefits may also impact eligibility for public assistance programs.

3 The amount paid by the rider will be reduced by benefit discounts resulting from early payment of uncollected insurance charges. The $250,000 maximum includes all policies in force with Allstate Life Insurance Company of New York.

4 Loans or partial withdrawals can reduce the policy’s cash value and death benefit, can increase the possibility of policy lapse, and may result in a tax liability. Consult a tax advisor for additional information on the tax treatment of loans or withdrawals from a life insurance policy.

5 Unpaid interest on loans is added to the loan principal, thereby increasing the total debt on the policy. The combination of an increasing loan balance, deductions for contract charges and fees and unfavorable investment performance, may cause the policy to lapse, triggering ordinary income taxation on the outstanding loan balance to the extent it exceeds the cost basis in the policy.

6 Increases in benefits are subject to underwriting approval. Changes to benefits can have income tax consequences.

7 At any time on or after the insured's 18th birthday, the insured may apply for a rate class change. Approval of this request will be based on meeting the underwriting criteria for that rate class. The sales illustration software allows you to illustrate the impact of a rate class change at age 18. A rate class change can have income tax consequences.

8 One cannot invest directly in the S&P 500. S&P does not reflect dividends paid on the stocks underlying the S&P 500.

9 Accelerated Death Benefit may or may not qualify for favorable tax treatment under the Internal Revenue Code of 1986. This depends on factors such as the customer's life expectancy at the time benefits are accelerated or whether the customer uses the benefits to pay for required qualified long-term care expenses. If the Accelerated Death Benefit qualifies, the Benefit will not be subject to federal income taxation. In addition, receipt of the Accelerated Death Benefit may affect the customer or his family's eligibility for public assistance programs such as medical assistance (Medicaid), Aid to Families with Dependent Children (AFDC), Supplemental Security Income.
